

Feedback of our "Effective Communication Skills" Trainings

The training touched the 'NERVES' in noting the postures of the body language. What I was not able to memorize in book of "Body Language" of Allan Pease, was brought well by your physical gestures. This training stood above the learning of Eric Berne's 'Games People Play', 'Transaction Analysis' as this training was practical with demos and examples from our routine work. - Mahendran I., BEML, KGF
